

HITS SPEAKER REED PRAISES MR. COOPER

CORRESPONDENT OF THE CHICAGO INTER-OCEAN WRITES.

Says the Man From Main Ignored the Wisconsin Congressman in Hopes That He Could Thus Aid in the Defeat of the Nicaragua Canal Bill.

The Washington correspondent of The Chicago Inter Ocean defends Congressman Cooper against the injustice done him by Speaker Reed, day before yesterday, as follows:

Speaker Reed has shifted the rivers and harbors bill from the rivers and harbors committee of both houses without materially changing the prospects of the Nicaragua canal amendment. Today, after much maneuvering, Chairman Burton brought into the house a report on the bill recommending non-concurrence in all the senate amendments. He moved that the house suspend the rules and adopt his report.

By such a motion he prevented any motion to concur, as no amendments are allowed to a motion to suspend the rules. It was the only chance of getting the bill out of the rivers and harbors committee, where it would be left as dead as a doornail unless this motion was adopted, and the friends of the bill accepted it as the only chance left to get the bill out of the hands of a committee bent on killing it. It is necessary in order to kill the Nicaragua canal bill. The motion was agreed to and the bill was sent to conference.

Ignored Mr. Cooper.

Speaker Reed then made another move in making up the conference committee which showed that he was ready to ignore all precedents to carry out his purpose of defeating the canal amendment. Representative Cooper of Wisconsin is an earnest friend of the canal and the senior member of the committee on rivers and harbors. According to precedent Mr. Cooper should have been promoted to chairman of the committee when Chairman Hooker resigned, two months ago, to accept a place on the bench in New York. But Mr. Reed did not want Mr. Cooper at the head of this important committee, because he is not subservient to the speaker. Mr. Cooper had too much independence to be allowed a chairmanship in the house under Speaker Reed.

Reed Dodges His Own Precedent

But the speaker did not want to violate the precedent he followed in the ways and means committee by appointing Mr. Payne to succeed the late Chairman Dingley, and he suggested that the committee should elect its own chairman, though he made sure that Mr. Cooper would not be the man elected. Mr. Burton, of Cleveland, Ohio, was more agreeable to the speaker, for while he comes from the president's own state, he is not a "McKinley man," as known in Ohio politics, but trains more with Mayor McKisson. He was just the man for Reed, and the committee ignored the claims of Cooper and elected Burton as chairman.

This turn-down for Cooper in the contest for chairman did not, however, justify the speaker in again ignoring him in making up the conference committee for the house.

Cooper Entitled to Honor

Mr. Cooper, as the senior member of the committee and the second to the chairman, was entitled by all precedents to a place on the conference committee, but he is in favor of building the Nicaragua canal, not simply investigating, and Speaker Reed again ignored him and appointed as house conferees Chairman Burton and Representative Reeves of Illinois, who is opposed to the senate amendment appropriating \$115,000,000 for the canal, as is Mr. Brown as well as Catchings of Mississippi, democratic member of the conference committee. Speaker Reed can depend upon these three men to stand by the house bill and resist the senate amendments.

A SMALL HORSE EXHIBITED

Weights But Fifty-two Pounds and Can Easily Be Carried.

Edward Fundy, of Shopiere, now has on exhibition in this city, one of the smallest horses in the world.

The little animal proudly bears the name of Dewey.

He is three years old and weighs but fifty-two pounds and can easily be carried in one's arms.

Joseph Hield, the well known horse trainer, had Dewey in charge today and as he lead him through the streets he met many number of dogs that were heavier in weight and larger in stature.

The little horse is of the Welsh breed of ponies and was raised by Mr. Bishop, of Beloit.

Dewey has attained his growth in

TO ENTER CHICAGO HOSPITAL

Miss Ina Gillies. Will Act as a Nurse at Wesley.

Miss Ina Gillies, of this city, will leave tomorrow morning for Chicago, where she will enter Wesley hospital for the purpose of taking a two years' course, preparatory for a trained nurse. Wesley hospital is considered one of the best of Chicago hospitals. Miss Gillies is the daughter of Mr. and Mrs. J. H. Gillies, of 229 Washington street. She is a highly esteemed young lady, and her host of friends will wish her success in her chosen profession.

SHOWING UNEASINESS

London Papers Leary of the Threats of the French, Relative to the Queen's Visit.

London, March 3.—[Special]—Papers today are showing considerable uneasiness at the threats of certain French papers, that if the queen visits France at this time, she can expect to be a victim of outrages. The Times says: "If any unfortunate incidents occur, England will know where to place the blame."

DECIDED IMPROVEMENT

Physicians Will Only Issue One Bulletin Today—Both Daughters Also Improving.

New York, March 3.—[Special]—Rudyard Kipling's condition shows such a decided improvement that his physicians will only issue one bulletin today. Early this morning Mr. Kipling was resting quietly. Both of his daughters show a marked improvement.

New York, March 3.—Rudyard Kipling's condition has improved very greatly during the past twenty-four hours. Only one bulletin was posted during the day. That was of a very satisfactory nature. Another indication that the patient is getting along well is that he asked to be shown the newspapers, and he seemed to be greatly pleased and affected at the interest in his illness shown by the American people.

Mr. Kipling spent a comfortable night. He slept for some hours and rested well, and again this morning he enjoyed an hour or two of sleep. In this way he has in a great measure recuperated his strength, and the promises are very bright for his speedy recovery.

According to the latest report, Kipling's two little daughters are not seriously ill, as was at first thought.

Members of the High school debating society, together with several admirers left today for Milwaukee, where this evening they will meet the South Side High school in debate at the Hanover Street Congregational church tonight. The South Side High school debaters will take the affirmative side, and will be represented in the debate by George C. Donville, Miss Inna Rohr and R. Robert Kahn. The negative will be debated for the Janesville school by Allen P. Lovejoy, Helen C. Field and Victor G. Marquisee. The judges will be Prof. Charles H. Haslins, of Madison; Geo. A. Buckstaff, of Oshkosh, and Principal H. L. Terry, of Waukesha. A supper will be served after the debate.

WILL TACKLE ROCKFORD

Forest City Team to Play Here On March Thirtieth.

The Janesville and Rockford Y. M. C. A. basketball teams will compete for honors in this city on Monday, March 13. For some time past, negotiations have been pending and now that they have been closed, the public will anxiously await the contest. The team from the Forest City is an up-to-date one in every respect and a warm spirited contest may be expected. The home team expect to play a return game in Rockford at no distant day.

WRIGHT SENT TO BASTILE

Came in to See the Fair But Got Intoxicated Instead

William D. Wright, a painter by trade, but a farmer by occupation, came to town yesterday from the town of La Prairie for the purpose of seeing the Mid-winter fair.

After spending an hour at the rink he went out to start a fair of his own and succeeded in soon making himself helpless. The police then took a hand in the affair and he was escorted to jail. In court this morning he was given six days in the county jail.

THEY'RE PLANNING ANOTHER ATTACK

THE INSURGENT'S INACTIVITY LEADS TO SUCH BELIEF.

Otis Wired War Department this Morning Denied the Filipino Story that Rebels Hold Six Hundred American Prisoners—Not a Single Prisoner.

Manila, March 3.—[Special]—The comparative inactivity of the insurgents leads to the belief that they are planning another attack. There was desultory firing during the night on the first Montana front. One soldier was wounded. Visayan, a military district, comprising the Island of Panay, Cebu, Negros, has been established, General Miller commanding. Colonel Smith, First California, will have charge of subdistricts Negros, and has been ordered to organize a native constabulary of two hundred men. The gunboat Oconor burned an insurgent vessel which was about to land a cargo of provisions at Dagupan.

Washington, March 3.—[Special]—Gen. Otis wired the war department this morning a denial of the Filipino story that the rebels hold six hundred American prisoners. He says they do not hold a single American prisoner of war and that the Americans have captured 1600 rebels. The troops are in splendid condition.

Manila, March 3.—It is rumored here that a steamer with 20,000 stands of arms and ammunition, bound for the Philippines, has been seized in Japanese waters by the Japanese authorities.

Aguinaldo's army is disheartened as the result of the recent actions. Many companies of the insurgents have retired because their officers skulked and would not lead their men. One hundred Filipinos ran forward toward the American line one day recently shouting, "We don't want to fight. Viva Americanos!"

The latest news from Cebu is good. The natives are returning to the town. The coolies are now willing to work at reasonable wages. Under the native government they asked double pay. Vessels are now loading and business has been resumed.

The influential natives of the islands of Malate and Ticao request Gen. Otis to send troops there. They say that 200 men could easily subdue the rebels. The inhabitants are peaceable. They are disgusted with the exhortations of three successive native governors. The two islands contain 80,000 head of cattle, which constitute the food supply of the rebel army of the south.

German Ships Head for China.

Berlin, March 3.—A high German authority says that the motives which induced Germany to intrust the protection of Germans in the Philippine islands to the United States are simple. The Kaiserin Augusta and other German warships in the far east are needed in Chinese waters, owing to the recent anti-German outrages, and Germany feels that German subjects are safe under the protection of Americans.

Hot Weather at Manila.

Manila, March 3.—Thursday was the hottest day of the season, but fortunately all was quiet inside and outside of our lines and the majority of the men were kept in the shade.

The United States transport Morgan City has arrived here. The wives of the officers and other women passengers were not allowed to land, the authorities considering the condition ashore to be too unsettled.

No Americans Are Prisoners.

Washington, March 3.—The war department officials pronounce absurd the characteristic Filipino story that Aguinaldo has taken several hundred American soldiers prisoners and removed them to the interior. As a matter of fact, Gen. Otis' bulletins have accounted for every man in the American army at Manila, and there is not on record a single case of missing.

More Gunboats for Dewey.

Washington, March 3.—The navy department has directed that the auxiliary gunboat Vixen, formerly the yacht Josephine of Philadelphia, be fitted out at Norfolk for proceeding to the Philippines. It is probable, also, that the auxiliary gunboat Mayflower, formerly Ogden Golet's yacht of that name, will be assigned to Dewey's command.

Two Are Dead, Nine Wounded.

Washington, March 3.—Two deaths—one from disease and the other from wounds—and the names of nine additional wounded at Manila have been reported by Gen. Otis to the war department.

THE REAR ADMIRAL IS MADE ADMIRAL

GEO. E. DEWEY RECEIVES HIS REWARD.

Brigadier General Elwell Otis Will Be Made General By Brevet For Most Distinguished Services.—Transport Sheridan Enroute to Manila at Gibraltar.

Washington, March 3.—[Special]—The president today, sent to the senate the following nominations: George E. Dewey to be made admiral in the navy; Brigadier General Elwell Otis, to be major general by brevet, for his distinguished service in the Philippines.

Washington, March 3.—[Special]—The war department is notified of the arrival of the transport Sheridan with troops for Manila at Gibraltar. The report also says there has been one death, twenty-eight sick, but only one seriously.

Washington, March 3.—[Special]—The senate may have to hold all-night session in order to finish its work by noon tomorrow. The house is fairly well cleaned up, and only a brief evening session may be held.

Washington, March 3.—[Special]—Secretary Long this morning sent Dewey a dispatch, congratulating him upon his deserved promotion, the rank of admiral.

Washington, March 3.—[Special]—The conferees on the river and harbor bill reached an agreement this afternoon and accepted the amendment to appropriate a million dollars to thoroughly investigate the Nicaragua canal question. They asked the president to appoint a commission to make the examination, surveys, etc. It is regarded as a knock-out for the Nicaragua project.

Washington, March 3.—[Special]—The senate this afternoon confirmed the nominations of Dewey and Otis.

Washington, March 3.—The house disposed of a number of matters in the course of the seven-hour session Thursday, the most notable action being the refusal by a decided majority to consider the Bailey resolution reported by the committee on judiciary, declaring vacant the seats of Representatives Wheeler, Robbins, Colson and Campbell, who had accepted commissions in the volunteer army for the war with Spain. There was no debate, the question of consideration being raised by Mr. Lacey (rep., Iowa).

Bills were passed, appropriating \$500,000 each, for government exhibits at the Niagara and Toledo expositions; also to ratify the treaty with the Lower Brule Sioux on Rosebud reservation, South Dakota, and to construct a new building for the department of justice, on the site now partly occupied by the old building, to cost not more than \$1,000,000.

The naval appropriation bill was sent to conference, after an agreement had been reached that, before finally disposing of the bill, the house should have an opportunity to vote on the amendment to establish an armor-plate plant, and to appropriate \$250,000 for dynamite guns.

IT WAS A STRUGGLE

Captain and Thirty-nine Members of the Moravia's Crew Reached Port Safely Today.

Halifax, March 3.—[Special]—The captain and thirty-nine members of the Moravia's crew reached port today. The Moravia struck a bar on the morning of Feb. 12, after battling nine days' with a terrific hurricane. In the only small boat left, the captain and eighteen men reached an island after nineteen hours' hard struggle with water and wind. The balance were rescued the next day.

MRS. TAYLOR'S REMAINS HERE

Arrived This Noon and Taken to Mrs. Wilbur's Home

All that was mortal of the late Mrs. S. M. Taylor arrived this noon from Oshkosh, the remains being taken direct to the home of Mrs. Emily Wilbur, 105 School street. The funeral will be held Saturday morning at 9:30 o'clock from St. Patrick's church and the interment will be in Mount Olivet cemetery.

Lester G. VanGelder.

Lester G. VanGelder died at noon yesterday, at his home, two miles south-east of Emerald Grove. His death was due to pneumonia, and his illness was of ten days duration. Deceased was twenty-eight years of age, and was the son of S. C. VanGelder. About a year ago he was united in marriage to Miss Besie Little. He was a native of Rock county, where he has always resided, and was a young man greatly beloved by all who knew him. Besides a widow he leaves a mother, three brothers and one sister, also a large circle of friends to mourn his untimely death.

The funeral will be held at 1:30 o'clock Sunday afternoon from the house, and the interment will be in the Turtleville cemetery.

Mrs. Marie Nagel.

Mrs. Marie Nagel, widow of August Nagel, died at her home, 203 Lincoln street, last evening at 6 o'clock. She leaves two children, John and Marie. John went to Denver, Col., about two months ago, while Marie lives at home. Funeral arrangements will not be made until the son is heard from.

CRALL HERE BUYING CATTLE

Former Rock County Man Is Here On Novel Mission

M. Crall, for many years a well known resident of the town of Center, and who now makes his home at Burchell, Ia., is in the city greeting his numerous local friends.

The object of his visit to Rock county is for the purpose of purchasing young cattle to be shipped to his large Iowa farm for fattening purposes. They are then sent to the Chicago market.

Mr. Crall says that everything is on the boom in Iowa.

THE PRESIDENT SIGNS

Congressman Cooper Telegraphs That the Janesville Post Office Bill Is Now a Law.

Postmaster O. F. Nowlan today received the following telegram:

Washington, D. C., March 3.—It is all right now. The president signed the bill last night. H. A. COOPER.

Thus it will be seen that the matter is definitely settled, and the building is assured. With reference to the site, the regulations provide that the matter of the location of the site is entirely under the direction and control of the treasury department, through its proper officials.

Joseph Hackett Meets With a Painful Accident in Fairbanks, Morse Co.'s Shops at Beloit.

Beloit, Wis., March 3.—[Special]—Joe Hackett, who works in the pattern department of Fairbanks, Morse & Co.'s shops, had all the fingers of both hands cut off in a planing machine late yesterday afternoon. He was taken to the office of the Drs. Helm, where the mangled stump were amputated. Joe is well known here and has many friends.

Nelson Berg, a night watchman and fireman at Fairbanks, Morse & Co.'s shop was drowned last night in a tank of ten feet of water, in the floor of the pump testing room. About 11 o'clock last night he left his boiler on which he had been making some repairs and was not found until eight o'clock this morning. Mr. Berg run a steamboat during the summer months and is well known here. He leaves a wife and four children to whom his sudden death is a hard blow. The coroner's jury will meet this afternoon.

GOOD SHOW HERE TONIGHT

One of Hoyt's Best Plays is "A Parlor Match."

Buy Flour Now.

The quotations from the mills on flour in carload lots are \$4.00 per bbl. or \$1.00 per sack. We are still retailing the best patents, "Gold Medal" and "Very Best" at \$1.00 per sack, the same as it costs wholesale, but the price may advance at any time. We have a large supply bought at the right time, but the steady advance in the wholesale price may shove our figures up at any moment. Our advice is to buy at once. Sanborn.

The Verb to "Jew."

The earlier editions of Webster's Dictionary contained a verb, "to jew," and defined it "to cheat," "to play with," etc. At the request of a number of influential Israelites, the word was eliminated from the book. As a matter of fact, however, the word had no connection with or reference to the followers of the Mosiac faith. It was derived from the French "jeu," and "jouir," which means "to play with," "to cheat," etc., but its orthography had become corrupted to "jew." It did not appear in subsequent editions of the work.—Hebrew Standard.

First Weather Prophecy.

The first attempt at scientific forecasting of the weather was the result of a storm which during the Crimean war, November 14, 1854, almost destroyed the fleets of France and England. As a storm had raged several days earlier in France, investigations were made, which showed that the two were in reality one storm, and that its path could have been ascertained and the fleet forewarned in ample time to reach safety.

A Gigantic Ice Company.

A bill has been introduced in the Maine legislature by Mr. Manley of Augusta authorizing the incorporation of the American Ice company, with a capital stock of \$80,000,000, half of which is preferred and the other half common stock. The general law does not permit the formation of stock companies with a capital above \$10,000,000, so a special charter is necessary. The company is to deal in all kinds of ice refrigerating plants, processes and products.

HE'S A CANDIDATE FOR THE PAPACY

ARCHBISHOP GOLOGNE IS AN ACTIVE ASPIRANT.

Today is the Twenty-First Anniversary of the Pope's Coronation.—Elaborate Ceremonies Were Planned For the Occasion, But Were Abandoned.

Rome, March 3.—[Special]—Today is the twenty-first anniversary of the pope's coronation. Most elaborate ceremonies and fetes were planned for the occasion, but have been abandoned and the day is marked with a general feeling of gloom and suspense over the pope's condition. The most cheerful man in Rome is the pontiff himself. He continues to converse cheerfully with those at his bedside and insists upon seeing all the bulletins that are posted by the physicians. Blood poisoning, resulting from the operation has passed, but the incision which was made to remove clot, has not healed. A number of cardinals have telegraphed privately, inquiring whether they ought to start for the conclave. A conclave of cardinals is called immediately after the death of a pope. Archbishop Gologno is now an active candidate for the papacy. The large square in front of St. Peter's and the entrances of the vatican are thronged with people, anxious for news of the pope's condition. He is in the eighty-ninth year of his pilgrimage.

Rome, March 3.—[Special]—The following bulletin was issued this morning: The pope had a good night and is lying still today, as is desired. His general condition is good and the wound caused by the operation is following the regular course in healing. His holiness is able to take sufficient nourishment, and indications now point to his recovery.

Pope Leo Doing Very Well.

Rome, March 3.—The latest news from the Vatican is that the pope's temperature at midnight had fallen several points. It appears that his disinclination to observe the recommendations of his physicians forms an obstacle in the way of prompt recovery. He has full confidence in his own strength, and does not readily acquiesce in advice not to move. A large number of additional inquiries and telegrams have been received at the Vatican from sovereigns and others in all parts of the world, expressing sympathy with his holiness. Dr. Mazzoni said that if the pope recovered, as he fully expected, there was no reason why he should not live for another ten years, so great is his vitality.

HE DIED OF EXPOSURE

Crew of the Steamer Moravia Saved With Exception of Second Officer—Died of Exposure.

Halifax, March 3.—The steamer Aberdeen, which just arrived from Sable Island, confirms the report of the wreck of the steamer Moravia there. The crew was saved with the exception of second officer, who died from exposure.

A Philadelphia Improvement.

A woman shoplifter was caught stealing an umbrella the other day in a Philadelphia dry goods store, says the New York Tribune. But it was decided not to prosecute her if she would pay for the umbrella, valued at \$2.50, which she did. The next day she returned and requested to see the manager. When that surprised person could recover himself sufficiently to ask her business the woman calmly told him that she had been pricing umbrellas in other stores and found that she could purchase one like her own for \$2, and she wanted to know if he wouldn't refund her 50 cents. As a tribute to her monumental nerve, the 50 cents was handed her in silence.

The Mocking Bird.

The mocking-bird is common in almost all parts of America, from the south of New England to Brazil. North of the Delaware it is only a summer visitant, but in more southern regions it is found at all seasons. By day the mocking-bird is generally imitative, excelling all birds in its power of imitation, now taking up the song of one bird and then of another, and often deceiving the most practiced ear by its perfect performance.

Thought They Needed Reforming.

A West African on a visit to England in connection with a missionary society was shown a collection of photographs. "What is this?" he asked, gazing wonderingly at one of them. "That is a snapshot taken during a scrimmage at a Rugby football game." "But has your church no missionaries to send among these people?" he demanded.

Can you believe your neighbors?

Read this statement made by a citizen.

Mr. E. T. Fish, of 355 Racine St., proprietor of the Fish Dray Line, says: "When I was twenty years of age I fell, injured my back, and ever since that I was troubled more or less with a dull, aching pain across the loins. It never laid me up but it was often painful and annoying. Of late years I have gone to a physician every six months and had myself thoroughly examined under the impression that there might be something wrong with my kidneys. The diagnosis always resulting in the physician claiming these organs were sound, but as the pains existed when I happened to notice in my Janesville papers that Doan's Kidney Pills were guaranteed to cure just such troubles, I procured a box at the Janesville Drug Co.'s store, and took them. Doan's Kidney Pills are a good preparation. My back has not ached since I used them. I have heard others speak very complimentary of them and if I did not know their merit and required such a medicine I would consider it a favor if some one suggested their use to me. For this reason I endorse them."

The night operator for the Northwestern road was given a thirty day lay off Tuesday morning for allowing by mistake two trains within the same block. A freight train had just pulled in from the north and the operator failing to note that no caboose lights were visible, reported the train on sidetrack.

Thereupon a passenger train following, left Shopiere station and soon encountered the rear portion of a freight standing on the grade a mile north of here, which the freight had left on the grade. The passenger pushed the car up to the station and was delayed several minutes thereby. Friends of the operator think the punishment too severe for so slight an offense, but the railroad company no doubt know by experience that it is necessary to be very strict regarding rules.

William Stone has sold his roadster to a Ft. Atkinson man. O. C. Gilmore, who died in Janesville Saturday, was well known here, where he had many friends.

Deceased had been in the jewelry business here for a number of years. He also kept a drug store for a time. He removed to Janesville about a year ago.

Oscar Woodward came over from Kenosha for a short visit recently. Mr. and Mrs. F. R. Helmer were guests of Janesville friends for a few days this week.

Dr. Covert has been tendered an important chairmanship at the annual meeting of the National Eclectic Medical association to be held in Detroit, June 20-22 next. A. J. Hamilton was in Peconica one day last week. J. L. Langborn has been quite ill. Dr. Roberts was a recent visitor here. We are sorry to learn that Mrs. O. E. Florida is again quite ill.

Perry Hanson is now a traveling salesman in the northern part of the state. There is no fine coal to be had in town at present. A very small supply of other grades on hand come high. Louis Marks has rented the Winchester farm for the coming season. He has also taken a farm south of town onto which he will move in the fall. Clinton was well represented at Janesville this week.

Afton

Afton, March 13.—A great deal of moving has been going on in this vicinity during the past week. Mrs. Nellie McCrea has moved from the Powers house to the house on the Inman estate and "May" Powers has left the McCrea store building and residence opposite the depot and returned to his own residence. Clarence A. Gower has vacated the Hindley farm and is now located on the Withington place, while Frank H. Otis goes from the James Kilmer farm to the Hindley and Rev. William Todd moves from the Hill's house here in the village to the Kilmer estate. The final move in this progression is that of George W. Robb from the old Washburn farm south of Afton to the Hills house. Other moves noted are those of H. V. Smith from the Waggoner residence here to the farm of his father in the town of Plymouth; Fred Borgwardt from the Jackson farm to the farm recently occupied by August Slievert and John Marsh from his own little place to the large Woolford farm in the town of Beloit.

Twenty-one members of Afton Camp, No. 2192, M. W. A.; attended the meeting and banquet given by Florence camp of Janesville, last Monday evening. The boys had a very enjoyable time and speak in highest terms of the generous treatment accorded them by their Janesville neighbors.

The members of Afton Camp who were present are the following: J. J. Auman, D. Bohling, J. F. Bolte, D. Brinkman, W. Brinkman, P. Drafski, A. F. Engleke, E. Hammell, C. H. Hudson, J. B. Humphrey, W. J. Miller, F. N. Otis, G. S. Otis, C. J. Rice, H. Schultz, J. W. Seales, A. W. Stark, F. P. Starr, A. R. Waite, C. R. Waite and U. G. Waite.

Some of the older residents of this vicinity may be interested in the notice which comes from Reading, Mich., of the death of Rev. S. D. Burlingame, who passed away at his home in that village Feb. 1, at the age of 81 years.

Mr. Burlingame was a former resident of Afton and was engaged in farming and milling here. Miss Lois A. Waite left for Chicago last Tuesday, but will visit relatives and friends at Harvard and Woodstock enroute. Our blacksmith, A. E. Uehling, nailed on 114 horse shoes Monday as a result of the icy roads.

Mrs. W. Eldredge is at Rockton, Ill., nursing her sister, Mrs. Bartholmew,

who is ill with pneumonia. Janesville has got her public building assured and we are glad of it. But where will it be located?

Shopiere

Shopiere, March 3.—E. G. Lewis passed away at the home of his daughter, Feb. 24, 1899, at Doland, S. D. He was born in Groton, New London, county, Connecticut, 1815. When but a child, he removed with his parents to Susquehanna county, Pa. He came west with his father in 1888, and settled on a farm in the town of Turtle. In 1892 he crossed the plains to California, where he engaged in mining for a time, and then returned to Rock county, where he resided until the death of his wife, Feb. 21, 1890. In 1884, he moved to Doland, S. D., where he has since resided with his daughter, Mrs. A. Truesdell. He leaves two daughters, Mrs. A. Truesdell, of Dakota; and Mrs. Mary Weirick, of Shopiere; two sisters, Mrs. Lawrence, of Dakota; and Mrs. Cadner, of Iowa; one brother, Albert Lewis, of California.

A calico carnival will be held at the Congregational church on Friday evening, March 10. All ladies are to wear a calico gown and are kindly requested to bring half a pound of carpet rags carefully cut. All gentlemen to wear a calico tie and bring a thimble. Fines will be imposed on any one failing to comply with the request. Miss Estella Uehling is visiting at Hanover and taking in the fair this week.

Mrs. E. P. Bostwick gave a cinch party on Tuesday evening. Mrs. James Truesdell has a sister visiting her from Rockford. Don Spicer is moving from Tiffany this week. We are glad to see him and his wife coming back here again. Charles Howard's team ran from the depot down as far as Mr. Dole's, when they were stopped by one of the boys, not doing any damage. Rev. Frank Richardson went to Evanston on Monday to see his brother, who has been very ill in the hospital at that place. Mr. and Mrs. Philo Bostwick entertained about twenty of their friends on Tuesday evening. The guests report a delightful time.

Sharon

Sharon, March 3.—H. H. Tubbs has rented his interest in the Elkhorn Blad to A. E. Pauley, of Brodhead, who assumes possession at once. Mr. Tubbs has secured a lucrative position with the C. & N. W. R. Y. Co., in Iowa, as surveyor. R. Andrews was passing a subscription paper around among our business men and others, last Thursday, to raise funds for the widow of the late Haken Haugenson, and the paper was signed by nearly everybody. Mrs. Andrew Boy, of Port Washington, Wis., who has been visiting with her daughter, Mrs. A. L. Schmitz, for about a week, left for her home last evening, by way of Chicago.

Ralph Sarasy came down from Janesville, yesterday morning, to transact business and for a brief visit with his aunt, Mrs. A. Field and family. The Messrs. Hatch and Stewart and their wives, of Hebron, Ill., spent Sunday with their wives' parents, Mr. and Mrs. John Wilson, and aunt. The bills for repairs to the High school building, including repapering and repainting, on account of the fire, amount to \$147.60 of which the district has paid \$18.42 for new curtains and repainting some of the seats, and the insurance company is expected to pay the bulk of the balance, amounting to \$128.

Mrs. Wm. Blakely, of Darien, nee Sena Dougall, daughter of the late Mr. and Mrs. Wm. Dougall, of this place, died at her home last Saturday, after a sickness of four months, aged forty years. She leaves a husband, to whom she was married in 1882, and one son, two brothers, Thomas Dougall, of this place, and J. Dougall, of Riverside, Cal., and two sisters, Mrs. Freeman Daniels, of this place, and Mrs. Hodgdon, of Brainerd, Minn. The funeral was held last Tuesday from her home in Darien, and burial took place in the Darien cemetery. Thomas Dougall and wife and F. Daniels and son Willie were among those who attended the funeral from this place.

Indian Ford

Indian Ford, March 3.—On Monday, March 6, on the farm he now occupies, one-half mile west of Cox's school house, Frank Shuman will sell at public auction, horses, cattle and all kinds of farming implements. W. Dooley will be the auctioneer. Free lunch at noon.

Wednesday evening, March 8, in their hall, the Good Templars will serve coffee and doughnuts at the rate of ten cents for first cup and five cents each for extra cups. A good program is pronounced, so all come. Faye Price is slowly recovering from a second attack of the grip. Capt. Wilson's lecture, illustrated by stereopticon views, given Wednesday evening, was good, although not very largely attended, owing to not being sufficiently advertised. W. Price attended the supper given by the Janesville Woodmen, Monday night, and reports a good time. Mr. and Mrs. G. Lackner and Frank Thomas spent Thursday in Janesville. Mrs. W. Price visited her parents in Edgerton, the first of the week. Mr. Hyatt is able to be out, after a tussle with the grip. A number of Ford residents took in the camp fire at Edgerton Tuesday night, and say it was well worth the admission paid. We are sorry to hear that Mrs. P. McCann is sick.

Emerald Grove

Emerald Grove, March 3.—Mrs. John McArthur Sr., has been very sick. May Barlass who has been staying with her uncle in Janesville spent part of this

week at home. Measles are all the go here. Mrs. C. Dennis is sick with pneumonia. Irving Dennis is reported to be no better. Miss Nettie Inman and her father are visiting relatives in Illinois. Mrs. Oscar Hanson spent a few days with her mother in Rockford. B. Irish, of Doland, S. D., spent a few days with relatives this week. Mr. and Mrs. Hans Hanson and Mr. and Mrs. J. A. McArthur and family spent Saturday and Sunday in Whitewater. About sixty of the University students, young men from the Agricultural station, Madison, visited the farms of Robert Lilburn and McLay Bros., last Tuesday, to inspect the Shetland ponies and other stock. D. M. Barlass will have an auction Saturday, March 11. Quite a number attended the Mid-winter fair, but sickness prevented many from going. Lester Van Gilder is reported very low at present writing, a consultation of doctors being held yesterday. Lizzie Inman and her mother are quite sick.

Willowdale

Willowdale, March 3.—John Lyons delivered his tobacco in Janesville last Saturday. Mr. and Mrs. Hanson, of Janesville, visited friends in this vicinity Sunday. George Corryell purchased a span of horses of James Young, last week; consideration two hundred dollars. Miss Hattie Lay is the guest of her sister, Mrs. J. T. Mooney. E. Brinkman, our creamery proprietor, while in Chicago last week, witnessed a million dollar fire. August Weedle and family, who lived on C. B. Downing's farm, moved to Hanover Wednesday. T. F. Condon called on friends here one day last week. Mamie Mooney was a caller at the Willowdale school last Friday. Bert Godden will work the Saul Spoon farm the coming year.

"Blessed Hour of Our Dinners"

Said the poet, and the meal is really enjoyable when eaten at the dining rooms of The Mrs. Clark Co., 151-153 Washburn avenue, Chicago, or at the restaurant on the 7th floor of the Association building in La Salle street, which is also run by this company. The cuisine and service are unexcelled.

FRIED CAULIFLOWER.—Soak the cauliflower, head downward, in cold salted water, then cook until tender in boiling salted water; separate flowerets, sprinkle with paprika and lemon juice and let stand several hours. Dry the flowerets on a cloth, roll each piece in beaten egg, then in bread crumbs, and repeat this process until all parts are well covered. Fry in deep fat, smoking hot, and drain on soft paper. Serve on a folded napkin. Pass with them tomato sauce.

Your friends will praise your coffee

if you use only the delicious

"T. & T. Coffee"

Blended by an expert whose equal does not exist, from choice selected coffee beans; packed whole, in sealed, air-tight, 2-lb. cans, to be ground as used. No coffee, loose or ground in the store, can be so delicious, because it loses its aroma and becomes a refuge for dirt and dust. This is why experts say that T. & T. Brand is

"The finest coffee in the world."

Tell your grocer "T. & T. Coffee or no coffee at all," and he will get it for you if not in stock.

LATE NEWS BY TELEGRAPH.

TALE OF BEEF DENIED.

Witnesses Are Contradicted—Board to Come West Next Week.

Washington, March 3.—There were several interesting developments in the beef court of inquiry Thursday. Clarence Walters of the First Volunteer Engineers was asked what his experience with canned beef had been on the voyage of his transport to Porto Rico, and replied that the first can he saw opened had worms in it and a few minutes after being opened developed such a putrid odor that it was impossible to have it about.

Later in the day, Lieut. Sewall, U. S. A., who was major of the volunteer battalion in which Walters served, contradicted his story completely, saying there was no canned roast beef aboard the transport which took the command to Porto Rico.

The question of counsel for Gen. Miles before the court is still in abeyance. Gen. Miles has not asked to be represented by counsel, presumably because that would put him in the position of admitting himself on trial by the court, which up to date he has declined to admit. On the other hand the court does not feel able under the articles of war to permit Maj. Lee or anyone else to cross-examine witnesses unless he can be recognized officially as counsel for the defense. The court expects to start west Tuesday or Wednesday of next week.

Miners May Return to Work.

Springfield, Ill., March 3.—No agreement on the adjustment of the scale resulting from the joint conference of the coal operators and miners was had Thursday. The scale committee of the United Mine Workers presented its demands, and the coal operators submitted their report. The two reports were referred to the scale committees of the miners and operators and a joint meeting was held, resulting in the reports being referred to subcommittees. Not being able to reach any agreement in the matter, an adjournment was taken until this morning. It begins to look as if the coal miners will return to work under the present agreement.

McKinley May Visit Hanna.

Washington, March 3.—Senator Hanna has invited President McKinley to go with him next week to his place at Thomasville, Ga., for a rest, and the president has promised to go if the public business is by that time in such a position as to permit his absence. If the trip is made it will be solely for the purpose of securing recreation, of which the president is in need after his long strain in connection with the Spanish war.

Spanish Generals Watched.

Washington, March 3.—Capt. Gen. Martinez Campos, Gen. Blanco, late captain general of Cuba, and Gen. Lopez Dominguez and Gen. Primo de Rivera are reported by late advices from Madrid to be under surveillance. It is declared on excellent authority the government has discovered a plot looking to the overthrow of the dynasty, and it is alleged the officers named are the leaders in the movement.

Mayors Like Proposed Law.

Peoria, Ill., March 3.—Mayor Stephens of East St. Louis was elected president of the League of Illinois Municipalities at the closing session, and it was decided to meet next year at Ottawa. The bill before the legislature to change the special assessment law so that improvements may be made without securing the consent of owners of contiguous property was approved.

Indiana Baseball League Plans.

Anderson, Ind., March 3.—The local organization now being well in hand, a meeting has been called in this city for March 12 for the purpose of organizing an Indiana baseball league. The towns which will be represented in the league are Anderson, Marion, Muncie, Logansport, Elwood, Alexandria, Hartford City and Kokomo.

Chile to Sell Her Cruisers.

Valparaiso, March 3.—The government, it is rumored, contemplates a sale of several cruisers to the United States and Ecuador.

BUSY DAY IN THE SENATE.

Many Bills Acted On by Passing and a Few Are Killed.

Washington, March 3.—The senate met at 10:30 Thursday morning. Conference reports on the naval personnel bill and on the bill to reimburse states and territories for expenses in raising and equipping volunteer troops for the war with Spain were presented and agreed to.

The bill to incorporate the National White Cross of America was reported. The incorporators are all women, and the object is declared to be "general emergency and relief work." Objection to its consideration was made by Mr. Morgan (dem., Ala.) and the bill went to the calendar.

The private pension bills on the calendar and those relieving from charges of desertion (some fifty in number) were taken up and passed.

The bill to encourage the holding of a Pan-American exposition at Niagara in 1901, and appropriating \$500,000 for a government exhibit and building, was passed.

Senators Hale, Perkins and Gorman were appointed conferees on the naval appropriation bill.

The conference report on the census bill was presented and agreed to.

On motion of Mr. Turley (dem., Tenn.) the house bill limiting daily services on government work or on public work done for the United States to eight hours, was taken up, but was immediately set aside, and the fortification bill was taken up in its place. Yeas, 39; nays, 7.

The deficiency bill was reported, and Mr. Hale said he would call it up the first thing today.

Without final action on the fortification bill the senate, at 6:20 o'clock, proceeded to executive business.

When, at 8:15 o'clock, the senate amendment to the bill for the erection of a new building for the department of justice was concurred in. The amendment limits the cost to \$1,000,000.

The fortifications bill was then taken up and passed.

No Settlement Now in Sight.

Washington, March 3.—The conferees on the river and harbor bill, after eighteen hours of continuous work, adjourned at 11 o'clock Thursday night until this morning. The Nicaragua canal question is still open, with no prospect of settlement. The senate conferees insist that the government shall be committed to the canal project definitely and finally, and that an appropriation be made for making surveys and continuing the investigation of the various routes. The deadlock is apparently as firm as it was twenty-four hours ago.

Six Bills Still Unpassed.

Washington, March 3.—The status of the appropriation bills is: All the bills have passed the house. All but the following have passed the senate and have been or are ready to be sent to the president: Rivers and harbors, sundry civil, naval, District of Columbia, deficiency and army. The deficiency has been reported to the senate, and the army is being considered by the senate committee. The other four bills are in conference.

May Promote Schley Alone.

Washington, March 3.—The senate, in executive session Thursday, took up the Sampson and Schley cases and discussed them briefly. Senator Butler moved to consider the nomination of Admiral Schley independently of the other nominations, but it being apparent that no quorum was present, the senate went into open session. The motion remains pending and will be pressed by Senator Butler at the next executive session.

Way Now Open for Dewey.

Washington, March 3.—President McKinley has signed the bill creating the rank of admiral in the navy. The commission of George Dewey to be admiral is already made out and awaits only the president's signature.

Maple City Self-Washing Soap not only saves the wear on your clothes because less rubbing is required, but it saves fully half the labor.

Gomez Has a Plan for Cuba.

Havana, March 3.—Gen. Maximo Gomez asks Gov.-Gen. Brooke to reduce the American army of occupation to 10,000 men, retaining 10,000 Cuban soldiers in the service of the military government. Gen. Brooke himself says nothing on the subject. If Cuban soldiers are enlisted it will be under American officers, and the old organization will be broken up. Were 10,000 men enlisted, this would allow the \$3,000,000 to be divided among the remainder, less those already employed on the streets and the rural police, about 1,200.

Hits Marriage License Bill.

Madison, Wis., March 3.—The True bill, providing for marriage licenses, was unexpectedly struck a heavy blow by the assembly committee on state affairs Thursday. The committee heard an argument in favor of the measure by W. J. McKay, presiding elder of the Methodist church for this district, and then, without further discussion, voted to recommend the bill for indefinite postponement. Despite this the friends of the bill will make an effort to have it promptly passed.

gratulatory letters and telegrams were received in great numbers.

A dinner complimentary to Mr. Schurz was given at night at Delmonico's. Covers were laid for 400. Among those at the main table on either side of Mr. Adams were Mr. Schurz, Levi P. Morton, James C. Carter, Seth Low, Edward M. Shepard, Charles S. Fairchild, Herbert Welch, William L. Strong, William Sloan and Alexander E. Orr.

Among those who sent letters or telegrams of regret were Grover Cleveland and Andrew Carnegie.

Sagasta Likely to Remain.

Madrid, March 3.—The queen regent has consulted upon the cabinet situation with Gen. Martinez Campos, Gen. Azarraga and Senor Silveira. Though the result of these conferences has not been announced, it is almost certain that Gen. Campos advised her majesty to continue Senor Sagasta in office with the present parliament, while on the other hand, Silveira, the conservative leader, it is believed, advised a change of policy. There is every probability of the continuation of the ministry of Senor Sagasta, who is warmly supported by Senor Romero Robledo, Gen. Weyler, and even the republicans.

Troops Ordered to Manila.

Washington, March 3.—Five regiments of infantry and part of a regiment of artillery, all of the regular service, have been ordered to proceed to Manila. The regiments affected are the Sixth, Ninth, Thirteenth, Sixteenth, and Twenty-first infantry, and the remaining batteries of the Sixth artillery on duty in the United States. Part of the Sixth artillery is now at Manila.

Five Found Murdered.

Clay Center, Kan., March 3.—A terrible murder was discovered last evening in Athelstone township, this county. When a neighbor drove John Gilbert's hogs home he was horrified to find that Mrs. Gilbert and her four children had been murdered. The boy was 9 years and the three girls 3, 5 and 7 years, respectively. The door was found locked and the husband is missing.

Says Rebels Will Not Yield.

London, March 3.—Senor Luna, the Filipino representative, has arrived in England. He keeps the purpose of his visit here a secret. He declares that the campaign in the Philippines will continue until the Americans leave the archipelago.

THIS DAY IN HISTORY.

1756—William Godwin, English novelist, born; died 1836.
1793—William Charles Macrea, tragedian, born in London; died 1875. Macrea was one of the principals in an affair that came near being an international episode. During his stay in this country he became in Marshal Victor, involved in a dispute with America's favorite tragedian, Edwin Forrest. The bitterness spread among friends and admirers of both actors. It culminated in a riot in Astor place May, 1849.
1847—Claude Fortin Victor, duke of Belluno, created marshal of France by Napoleon on the field of Friedland, died; born 1784.
1861—Emancipation of Russian serfs by imperial decree of Czar Alexander II.
1862—Dr. W. C. Palmer, antiquarian and writer, died in Richmond.
1867—Nelson Wheatcroft, well known actor and dramatic teacher, died in New York city.

LET THE GOOD WORK GO ON

Now that City Electrician Klein, has demonstrated that he can thaw water pipes with electricity, the council should make arrangements to discontinue the street lights, and use the current that the city pays for—and therefore owns—for the purpose of thawing pipes. Many people are greatly inconvenienced by the fact that their water services are frozen, and all means of relief should be exhausted before the project is given up.

City Electrician Klein has demonstrated the value of the process, even while working with the unsatisfactory current afforded by the street railway company's machinery, and if he could use a lighting dynamo to make the current, and the trolley wire to carry it—which connection could be very easily made—he would be able to thaw any service pipe in the city, thus rendering a great accommodation to many people.

The tax payers are now expending close to \$13,000 a year for current to run arc street lights. The people pay for this current, and if they desire to use a current to thaw a pipe or run a motor, they should have a right to do so.

Superintendent Green, of the street railway, has been very accommodating, but fears damage to the machinery under his charge. Under the circumstances, therefore, he does not feel justified in allowing it to be used longer.

Electrician Klein has shown the correctness of his theory that pipes can be thawed with the appliances now at hand, and work that benefits so many people in so great a degree should not be abandoned. If the refusal of the use of the lighting machinery is to stand, the householders whose pipes are frozen should club together, rent a dynamo, and avail themselves of Mayor Thoroughgood's very generous offer to allow the use of the big engine at his factory to drive the same. It would not cost much to rent a dynamo, and then the work could go on in spite of all difficulties.

Electrician Klein has worked faithfully at any hour of the night that he could get the current, and invested a considerable sum in wire—as he was unable to secure it in Janesville. He has not yet done work enough to repay him for this outlay, much less for his trouble and inconvenience. As the matter now stands, therefore, he has not only given his time and knowledge to the work, but his money as well. Janesville people well appreciate this fact, however, and Mr. Klein will certainly lose nothing by showing a disposition to be of service to the people who employ him, even at the expense of both his comfort and pocket book.

Since the above was written letters have been received from Mayor Thoroughgood and Pliny Norcross. They appear in another column and explain themselves. However we feel that the fact still remains that Electrician Klein has accomplished just what he said he could, and that the city should therefore have the right to try further experiments with the direct current dynamo. If he succeeds, well and good. If he fails, no harm has been done. Is there anything unreasonable about this proposition?

THE RECORDER'S DISCOVERY

The Recorder, after spending many days in a comatose state, has discovered that Janesville is to have a federal building—but only mentions the fact that it may be the peg upon which it may hang an editorial slighting Congressman Cooper. We do not note this fact in condemnation of The Recorder, but rather in a spirit of sympathy—The Recorder was obliged to serve the Order of Disturbers and Gossip, and could not do anything else. Poor Recorder! Bound with iron chains, it can do only what it is told to do. But now that we are certain that we are to have the building, the "official organ" had to make some note of the fact, but it was compelled to consult the O. of D. and G. before doing so. Consequently, The Recorder is quite disappointed because the bill passed. It was glum because the O. & N.

W. company built a new depot, but it feels much worse because we are to have the federal building. The Order of Disturbers and Gossips is a small body, but, with The Recorder, its word is law. Too bad, isn't it?

It may be, as one of the world's famous physicians says, that given a man or woman of equal size and weight, then the tongue of the woman is smaller than that of the man. Be this as it may, however, many people will still insist that size in no way interferes with activity.

Evansville Enterprise—"Orlean Holister says his taxes are more in this city on the same valuation of property than they are in the city of Janesville, where they have water works, paved streets, street cars and all modern city improvements."

Editor Libby, of the Evansville Enterprise, always has views on all public questions, and is not afraid to acknowledge them. In a recent issue of his paper he says: "We would be glad to see every street in this city paved with gold, were we able to do so, but fear we are not, just yet."

But to change the subject, and quote some language in a vein that made a New York City newspaper man famous, we wish to ask if that article "wouldn't thaw your pipes?"

Janesville will grow, and her people will prosper regardless of the fact that some people throw cold water on every thing that will be of public benefit.

It was a great shock to the organ of the Order of Disturbers and Gossips. The poor old organ has not had such a setback since the new depot was built.

Uncle Sam doesn't recognize The Recorder, and proposes to give us a federal building in spite of that somewhat remarkable publication.

The stock in the baking powder trust will certainly rise when it is watered.

The army bill has been passed, and Uncle Sam is "ready for all comers."

TWELVE FINGERS, TWELVE TOES.

Simon Rucca, a 60-year-old wrecker of Calbarien, Cuba, is a six-fingered and six-toed wonder. Based on the argument that if a five-fingered biped is able to earn and lay by a moderate competency in sixty years, a six-fingered one should be wealthy in the same space of time, Simon Rucca should today be a rich man, retired from active life and looking back on a pathway marked with the six-digit footprints over which he has trodden to ripe old age.

But Rucca is a poor man, depending for his bare existence on the few dollars he can earn at infrequent intervals in his professional capacity as a wrecker.

Rucca is a native of Andros island, one of the British Bahamas, where he was born of African parentage in the days of slavery. His early life was spent fishing for sponges on the barren keys, an occupation for which he was eminently fitted by reason of the great number of fingers with which nature had so liberally endowed him.

Rucca has six fingers on either hand and six toes on his right foot, which he can use with perfect freedom. He is otherwise normally constructed.

There is nothing repulsive about his hands, as the fingers are all perfect, articulated and flexible. About ten years ago Rucca was discovered by the master of an American schooner which went ashore on the rocks at the entrance to Calbarien harbor. He made him an offer to come to this country and exhibit himself at a museum. Rucca, who shrinks from publicity, and prefers his humble existence in the land of his adoption to the glittering life of a dime museum freak, refused the offer.

Rucca, although he took no part in the recent war, is a rabid separatist.

SIMON RUCCA.

and an earnest advocate of the cause of free Cuba. He is, like many others of his race, a magnificent orator, and can talk about anything.

The following program was rendered before the election and installation of officers took place:

Piano Solo.....Miss Charlotte Putnam.
Recitation....."So Was I"
Zither Solo.....Miss Lottie Pabst.
Recitation....."Adam Never Was a Boy"
Josephine Fenton.
Character Song.....Charles Patterson.
Miss Pabst's zither solo and Mr. Patterson's solo were encored. Mr. Patterson sang Irish and German character songs, both of his own composition, which delighted the audience.

After the rendition of the program, Mrs. Hart explained the object and many advantages of the order, after which the organization was perfected.

Besides Mrs. Louise C. Hart, the Chief of Honor from Ashland, Wis., Baraboo sent down a delegation of eleven ladies and gentlemen. The party was made up of Mr. and Mrs. C. H. Page, Mrs. C. Walrath, Mrs. J. McDonald, Mrs. P. Pollewick, Mrs. J. Fetz, Mrs. C. Dyrud, Mrs. C. Sinclair, Mrs. J. Owen, Mrs. R. Perry and L. Dyrud.

IT WAS PULL DOWN AND DRAG OUT

DENSE CROWD AT MID-WINTER FAIR.

At Times the Crowd Seemed Almost As Dense As Thursday Afternoon—Judges Were Busy All the Morning In Difficult Task of Awarding Prizes.

All afternoon it was a case of pull down and drag out at the Midwinter fair. At times the crowd seemed almost as dense as on Thursday afternoon, but the pressure was toward the exhibits rather than up and down the main aisles.

All this morning the judges were busy completing the awarding of prizes, and at one o'clock the delivery of prizes and the removal of grain, vegetables and culinary articles began.

As has been the rule for three years, most of the cakes, pies and cookies were offered for sale, the proceeds being turned back to the exhibitor. This made lively work for the committee in charge of the culinary display but there was no hitch and an immense amount of toothsome delicacies were passed over the counter before the demand waned.

The judging this year, has been very satisfactory throughout, although in no case where competition is so close is it possible to avoid a certain amount of disagreement.

In judging corn first prize was given to corn fully matured and with good solid kernel. Much of the corn shown while very fine in appearance was not fully ripe, the kernels being soft near the cob. It was for this reason that Gold Mine corn, which has taken prize three years running, was not in first place this year. The first prize corn was a yellow dent corn, very close and firm, but with smaller ears than the Gold Mine.

The specimens of barley, rye, oats and buckwheat shown were very fine. Prizes in the grain department went as follows:

Supt. Geo. McKerron, of the agricultural department of the state university, spoke this morning on questions suggested by grain competition at the Midwinter fair.

Delbert Uller, of Waukesha county, spoke on vegetable raising and the Rock county vegetable display.

During the day W. J. Miller, of Atton showed at the fair a hog weighing 900 pounds. The hog was raised by Charles Kilmer, of Atton, and is Chester White stock, three years old. From the same strain he has had pigs weighing 350 pounds when nine months old.

There was another baby show this afternoon—a baby nearly seven feet high and with a head like a salt barrel. A good many people thought the baby looked like M. O. Mount when he appeared in full dress at the Golf club masquerade.

There were six entries in the decorated farm wagon class, but the threatening weather kept all but two away. Those two attracted much attention. John Hugunin received first prize and James C. Little the second. The awards in the horse department were:

Best General Purpose Farm Team—John P. Knight, 1st, 21 meal ticket, value, \$5; E. R. Boynton, 2nd, pair Turner equalizers; James Little, 3d, one five-ring halter; C. F. Matthias, 4th, American Horse Owner one year; Oscar B. Sayles, 5th, six packages Diggs' Condition Powders.

P. NORCROSS WRITES NOTE TO THE MAYOR

THAWING OF WATER PIPES THE SUBJECT.

Chief Executive of the City Authorizes the Turning Off of City Lights, and Asks For the Use of a Current—Mr. Norcross Makes Reply.

Mayor Thoroughgood has made a formal request of Pliny Norcross for the use of a lighting dynamo to thaw water pipes under the direction of City Electrician Henry C. Klein, whose work in that line has been the talk of the town for some days past. Mayor Thoroughgood's letter, and Mr. Norcross' reply are as follows:

Hon. Pliny Norcross, City—The condition of the water service in this city is such that I am prompted, on behalf of the city to make you the following proposition: In case you will furnish power and current for the use of Mr. H. C. Klein for thawing services, I, as mayor, will authorize the discontinuance of the lighting of the streets of Janesville during the time that such power and current is used for that purpose, the furnishing of the power for that purpose to do in lieu of lighting the city, Mr. Kliene to have the privilege of removing your current wire from the dynamo, and attaching one of his own wires to dynamo and trolley, all without loss to you.

J. Thoroughgood, Mayor.

Hon. John Thoroughgood, My Dear Sir—Yours of this morning in regard to placing the street lighting system of the city, at your service, to assist in the more important work of thawing out the frozen service pipes received.

I indeed I should be very glad to do anything in my power to accomplish that one result, and should be more than willing to have Mr. Klein take charge of the work. But I fear that the street light system is unfortunately, not adapted to this work. I understand that an electric current which would successfully thaw out the frozen water pipes must have not less than from 200 to 300 amperes.

Of the six dynamos which comprise the arc light outfit for streets not one generates a current of more than seven amperes—or to be accurate 6.8-10 amperes—while the voltage is about 2,000.

They are made to generate just such a current and they cannot generate any other. The whole six would not heat a 1 inch pipe 50 feet long. In a letter received from Prof. Jackson of our state university he says the "our arc light dynamos would be of no service in thawing frozen water pipes."

In addition to those six arc light dynamos I have two incandescent dynamos which work together as one machine, in my Janesville station. They generate 110 volts on three wires, or 220 volts on the two outside wires; and have a capacity of over 1000 amperes. They furnish current for incandescent lights and for the motors which drive the machinery in the Janesville Carriage works, the Parker Pen company, the Cunningham clothing company, the Button factory, The Gazette and other places, and they run constantly except at the noon hour of each day and part of Sunday.

This current requires a very large wire, and the wire should be long enough to make a return, or complete circuit. I have large mains on a part of Milwaukee street and on a part of Main and River streets, but my large mains do not extend to one twentieth of the houses where the frozen pipes are located.

If the street railway would surrender their main line of wire, and then if a return wire was added, I could probably reach a larger number; but I understand that the street car company does not wish to give up their main line, and even if it did there must be a long extension of returns, so that the necessary wire would call for several hundred dollars outlay.

In a recent test at Watertown all of the arc and incandescent lights were cut out before the proper power could be obtained.

I understand that the superintendent of our street railway declined to allow his dynamo and wire to be used any more for the reason that the work required so much power that the dynamo was made quite warm. He could not thaw pipes and run the cars at the same time.

Prof. Jackson in his late letter to the Milwaukee Sentinel says that it is not prudent to use direct current for this work as electrolysis is likely to follow.

Now, Mr. Mayor, I have written quite fully in answer to your favor for the reason that it has come to my knowledge that I have been criticised rather severely for not putting my plant into this frozen pipe service.

I think it must appear from these statements.

1. That my street light are dynamos cannot be used for this work.

2. That my power and incandescent generators would require the addition of a large and expensive wire in order to reach most of the houses where the trouble is located.

3. That there is some risk of not being able to supply power and light to my regular customers if I engaged in the work although it is quite likely that I could reach a few houses located along my main line.

In the existing conditions of our city I believe that the only feasible plan is to put an alternating dynamo in the place of one of my street light dynamos, belt it to my main shaft and then with the proper exciter and large transformer to carry a current over one circuit at a time of the four street light circuits. In this way a large number of houses could be reached. Such an outfit would cost from \$600

to \$700 besides the necessary outlay for wire to connect the wire in this one circuit, when cut open, to the frozen service pipe.

I could not afford to put in this additional outfit as it would be of no use to me after the ice pipes were thawed.

It would not fit any lamp or motor in my service.

The four street light are circuits are at your service, and power to drive an alternator, but I have nothing else in my outfit which could be used for general relief. Although I can thaw pipes near my incandescent mains.

Mr. Klein has demonstrated that direct current can be used successfully in this work. Very respectfully.

PLINY NORCROSS.

TO RELIEVE THE SUPREME COURT

SENATE TODAY ADOPTED JOINT RESOLUTION.

It Proposes An Amendment to Constitution Giving Legislature Power to Establish An Inferior Appellate Court—Majority Favor Indefinite Postponement.

Madison, March 3.—[Special]—The senate today adopted the joint resolution proposing an amendment to the constitution, giving the legislature power to establish an inferior appellate court, to relieve the supreme court of some of its trivial cases.

Two minor bills were passed and one killed.

Among the bills to a third reading was one compelling employers to provide seats for female employees and a bill authorizing a special tax by cities for school purposes.

The senate adjourned until Monday evening.

In the assembly, the Orton bill, giving the university a lump sum appropriation, was reported favorably.

A divided report was received on the True marriage bill, a majority being for indefinite postponement.

The constitutional amendment, giving the governor and legislature the right to ask the supreme court opinions on the constitutionality of important measures, was reported for slaughter.

The bill to require a registration of physicians who were practicing when the medical bill went into effect, passed.

Chicago Live Stock Markets.

Chicago, March 2.—Only fair receipts of cattle and hogs came for today's market and there was some gain in values in each branch, many fair steers and a good share of the strong-weight hogs selling close to 10c higher. Sheep trade was sluggish from the start. Only a few choice lambs could be sold early at steady prices. Today's receipts, estimated at 8,500 cattle, 25,000 hogs and 13,000 sheep, make 39,074 cattle, 133,474 hogs and 58,637 sheep for the week thus far, against 42,106 cattle, 98,083 hogs and 55,059 sheep for the same time last week, and 41,733 cattle, 113,896 hogs and 75,924 sheep for the same period last year. Trade in sheep and lambs continued sluggish throughout many later sales, appearing 5@10c lower, while offerings in other branches were quite closely brought up at much more satisfactory prices than were paid the day before.

HOW PARISIANS WORK.

One of the features of street life in Paris which strikes the American visitor with wonder is the extraordinary number of men of leisure to be seen at all hours of the day, lounging and chatting in the cafes. The fact is that many of them are employees of one kind or another, but their hours of labor are very different from those that prevail in America. The young French clerk or bookkeeper would throw up his position, even though such an act meant bread and water for years to come, if his employer dared to import what are becoming known on the continent as "American methods."

The Paris clerk wants to come down to his work certainly not earlier than 9 o'clock—it is oftener 10 that finds him before his desk—and if his two hours at noon are abridged by the smallest quarter hour, sulkiness and surliness are the sequel. In positions just a grade above his the incumbents stroll in at 10, lunch from noon to any hour they please, and never stay later than 5 o'clock at their offices. The cafes are full at all hours of the day with prosperous men, whose conversation shows them to be engaged in what even the blue-blooded Frenchman is beginning to mention respectfully as "la commerce." These "merchants" every business man in Paris is a "merchant"—ruminate over their affairs in the shade of a cafe awning instead of behind the forbidding railing of a private office.

Immaculate boots, spotless, linen and highly polished top hat—all proclaim that the men do not by any means give all their time to "business." Even in the large department stores such a thing as a clerk working overtime or curtailing his midday meal for any purpose whatsoever has never been heard of. In the store clerks and accountants are obliged to attend to their monotonous but never hurried duties. The moment a certain gong strikes they do their glossy high hats, change their short coats for the courtly length required on the boulevards and immediately seek their favorite restaurant or cafe, where they become gentlemen of leisure, "reuniers," and talk of political affairs or the last salon with highly judicial air and critical eye, as if there were not yards of ribbon and silk waiting for their hands during the afternoon.

Reform Party Finishes Work.
Cincinnati, Ohio, March 3.—The general conference of the national reform party concluded its work Thursday. Its organization preparatory to nominating an independent presidential ticket next year will be completed when its national executive committee meets at Buffalo, June 29. The effort to amalgamate the populists, silver republicans, socialists, labor party, the national liberty party and other scattering elements was not successful. There were only 154 delegates present, representing fifteen states.

Pace of Camels.
Seven miles an hour is the camel's best pace. Nor can it maintain this rate over two hours. Its usual speed is about five miles an hour—a slow, lounging pace, beyond which it is dangerous, with nine camels out of ten, to urge them, or else, as the Asiatics say, they "break their hearts," and literally die on the spot.

Chamois Abound in Austria.
The chamois is usually identified with Switzerland, but the animal is less common there than in any other country which it inhabits. Austria is the real home of the chamois, where they are most plentiful.

Chamberlain's Cough Remedy.

This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving account of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. Sold by People's Drug Co.

Happy is the man or woman who can eat a good hearty meal without suffering afterward. If you cannot do it, take Kodol Dyspepsia Cure. It digests what you eat, and cures all forms of Dyspepsia and Indigestion. People's Drug Co., Main and Milwaukee streets.

ALLEN LAW WIPED OUT.

Repeal Bill Adopted by the Senate Without Opposition.

Springfield, Ill., March 3.—After listening to a flood of oratory and a number of speeches, the senate Thursday passed the Allen law repeal bill by a vote of 43 yeas. There was no negative votes. "Farmer John" Humphrey of Cook and Senator Grainger of McHenry County, who helped pass the law in 1897, sat in their seats and refused to vote for the repeal. The only absentee was Senator Hamilton of Iroquois county, who is detained at home by illness. He will be recorded in the affirmative when he returns to the capital. It is understood Gov. Tanner will reach home Saturday and that he will sign the bill as soon as it is engrossed and laid upon his desk. If he vetoes the measure it is said both houses are ready to pass it over his veto.

Does Coffee Agree With You?

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee. It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow directions in making it and you will have a delicious and healthful table beverage for old and young. 15c and 25c."
